Work Experience

> Frontend Engineer

Jun 2024 - Current. Frontend Developer at Terminal Solutions, responsible for managing Vue 3 projects, designing complex interfaces for terminal systems, and refactoring code to enhance project architecture and performance.

> Cloud Developer

Sep 2023 - May 2024. Cloud Developer at Preference S.L., building interfaces in Vue3 + TailwindCSS and Vuetify for .NET + Razor projects. Tasks include component development, debugging, testing, and learning new technologies like Docker for web project enhancement.

> Junior Engineer

July 2021 - January 2023. Led front-end development for NTT DATA projects, focusing on component development, team training, theme standardization, accessibility, stylesheet coding, back-end support, and testing. Worked on projects for Marcadona, Sabadell, Resolution Life, and La Quirón.

> Front-End Student

September 2020 - June 2021. Extracurricular practices. Participated as an OutSystems Front-End Developer at NTT DATA, focusing on HTML, CSS, JS coding, device responsiveness testing, theme management, and generating front-end reports.

> Digital Marketing Department

January 2018 - April 2018. University practices. Managed social media content for multiple companies, handling campaign analysis, SEO, SEM, positioning, and client reporting.

> Free Time Instructor Campus

June 2015 - August 2015. Support instructor at the Great Finborough Summer Campus (in England).
