InDesign

STRENGTHS

- Teamwork & sociability
- Pro-active & initiative
- Clear communicator
- Problem solver
- Creative thinking

CERTIFICATION

- IAB · Google Digital Marketing

PROFILE

Vue 3 front-end engineer and UI / UX designer. I specialise in building complex, accessible interfaces — now integrating **AI tooling into the front-end** — and care about clean architecture as much as clean design, always chasing the convergence of communication and technology.

EXPERIENCE

- Front-End Engineer

Jun 2024 – Present

TERMINAL SOLUTIONS

Lead Vue 3 projects end to end: building complex interfaces for terminal systems, **integrating AI tools into the front-end**, owning testing and training the team — while refactoring code to strengthen architecture and performance.

VUE 3 AI INTEGRATION TESTING TEAM TRAINING REFACTORING
- Cloud Developer

Sep 2023 – May 2024

PREFERENCE S.L.

Built interfaces in Vue 3 + TailwindCSS and Vuetify for .NET + Razor projects — component development, debugging and testing — while adopting new tooling such as Docker to improve web delivery.

VUE 3 TAILWINDCSS VUETIFY .NET · RAZOR DOCKER
- Junior Engineer

Jul 2021 – Jan 2023

NTT DATA

Led front-end development across enterprise projects — component development, team training, theme standardization, accessibility, stylesheet coding, back-end support and testing. Clients included **Mercadona, Banc Sabadell, Resolution Life** and **Quirón**.

COMPONENTS ACCESSIBILITY THEMING MENTORING TESTING
- Front-End Developer · Internship

Sep 2020 – Jun 2021

NTT DATA

Extracurricular practices as an OutSystems front-end developer — HTML, CSS and JS coding, device-responsiveness testing, theme management and front-end reporting.

OUTSYSTEMS HTML CSS JAVASCRIPT
- Digital Marketing · Internship

Jan 2018 – Apr 2018

UNIVERSITY PRACTICES

Managed social-media content for multiple companies: campaign analysis, SEO, SEM, positioning and client reporting.

SEO SEM SOCIAL MEDIA
